Sequence 13, Application US/09953133A

GENERAL INFORMATION:

APPLICANT: ImmunoGen Inc.

TITLE OF INVENTION: BEC3 GENE PROMOTER AND METHODS FOR IDENTIFYING MODULATORS OF

TITLE OF INVENTION: APOPTOSIS AND BEC3 GENE EXPRESSION USING A BEC3 GENE PROMOTER;

FILLE REFERENCE: F156822

CURRENT PILING DATE: 2001-09-17

NUMBER OF SEQ ID NOS: 13

SEQ ID NO 13

SEQ ID NO 13

LENGTH: 20
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        APPLICANT: ImmunoGen Inc.
